P.Gill White:

Sibling Grief – Healing After the Death of a Sister or Brother.

Bloomington: iUniverse Star, 2006 (www.iuniverse.com)

As the president of 'Bereaved Parents of the USA' says in her appraisal, the writing about sibling grief is 'a much needed subject within the bereavement community ... as siblings sadly are often the forgotten grievers when the death of their brother or sister occurs'. It was influenced by the personal experience of the author and is a very comprehensive handbook for grieving siblings as well as their caregivers with a lot of practical advice (for both the grieving sibling as well as their caregivers) and a long book list for further reading.
